INDEX TO VOLUME 7

Key to Abbreviations: *abs/comm* = abstract/commentary; *e* = editorial; *le* = letter to the editor; *p* = primer; *pi* = patient information.

SUBJECTS

ACE inhibitors
ACE inhibitors for all patients with type 2 diabetes? 7(1):18–9 *abs/comm*
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*
Renal insufficiency and ACE inhibitor use, 7(11):15–6 *abs/comm*

Acupuncture
Acupuncture for cocaine addiction, 7(10):20–1 *abs/comm*

Advance directives
How to implement the "Let Me Decide" advance health and personal care directive program, 7(9):41–7

Alendronate
Therapy prevents bone loss over long term, 7(2):9–10 *abs/comm*

Alzheimer's disease
Rivastigmine for treatment of Alzheimer's disease, 7(11):16, 25–6 *abs/comm*

Ancrod
Intravenous ancrod for treatment of acute ischemic stroke, 7(6):18–21 *abs/comm*

Anesthesia
Does hypnosis relieve pain and anxiety during conscious sedation? 7(6):15–6 *abs/comm*

Angioplasty, percutaneous transluminal coronary
Angioplasty versus medical treatment for coronary artery disease, 7(8):11–2 *abs/comm*

Anorexia nervosa
Care of the adolescent patient with anorexia nervosa, 7(6):65–74

Anticoagulation
Cost-effectiveness of new antiplatelet therapies, 7(12):29–30 *abs/comm*
Oral anticoagulation: clinic management or self-management? 7(9):8, 11 *abs/comm*
Outcomes of outpatient anticoagulation therapy, 7(8):10–1 *abs/comm*
Reducing the risk of bleeding in anticoagulated patients, 7(12):13–4 *abs/comm*

Antiemetics
Prochlorperazine versus promethazine for uncomplicated nausea, 7(9):12, 15 *abs/comm*

Antihypertensive therapy
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*
Underuse of early β-blocker therapy for myocardial infarction, 7(1):19–20 *abs/comm*

Arthroplasty, hip
Ancillary service utilization in academic health center hospitals: use of physical therapy for the treatment of stroke and hip arthroplasty, 7(8):20–6

Aspirin
Aspirin for primary prevention of heart disease: benefits overestimated? 7(8):13–4 *abs/comm*
Low-molecular-weight heparin versus aspirin in patients with stroke and atrial fibrillation, 7(6):10–1 *abs/comm*

Asthma
Impact of stress on children's asthma attacks, 7(11):8, 11 *abs/comm*
Partnering specialist care with nurse case management: a pilot project for asthma, 7(5):17–22

Azithromycin
A comparison of moxifloxacin and azithromycin in the treatment of acute exacerbations of chronic bronchitis, 7(12):33–7

β-Blockers
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*

Bariatric surgery
Bariatric surgery relieves cardiovascular symptoms in obese patients, 7(8):14–5 *abs/comm*

Breast cancer
Genetic susceptibility testing for breast cancer: implications for practitioners, 7(1):81–8
Health-related quality of life assessment in breast and prostate cancer, 7(12):53–66

Burns
Quality of life in children surviving massive burns, 7(3):11–2 *abs/comm*

Caesarian section
Planned caesarian section preferable in breech deliveries, 7(12):26, 29 *abs/comm*

Cancer pain
Pain in advanced cancer: assessment and management, 7(10):47–57

Cardiac risk indices
Cardiac risk indices compared, 7(10):16, 18 *abs/comm*

Cardiovascular disease
Angioplasty versus medical treatment for coronary artery disease, 7(8):11–2 *abs/comm*
Appropriate drug prescribing for cardiovascular disease in the elderly, 7(4):47–54
Aspirin for primary prevention of heart disease: benefits overestimated? 7(8):13–4 *abs/comm*
Cardiovascular risk reduction at UnitedHealthcare of North Carolina: the first 12 months, 7(4):40–3
Coronary heart disease in type 2 diabetes: the end result of the insulin resistance syndrome, 7(11):50–9
Daytime sleepiness in the elderly: a risk factor for cardiovascular disease? 7(4):10–1 *abs/comm*

Case management
An emergency case management program to prevent payment denials, 7(3):38–42
Partnering specialist care with nurse case management: a pilot project for asthma, 7(5):17–22

Catheters, central venous
Antimicrobial central venous catheters: a qualitative review of the literature and economic assessment, 7(12):42–8

Cervical cancer
New adjunct to cervical cancer screening: is it cost-effective? 7(10):21–2 *abs/comm*

Cholesterol
Cost-effectiveness of cholesterol-lowering therapies, 7(7):17–8 *abs/comm*
Impact of a low-cost intervention to increase cholesterol awareness among older patients, 7(4):31–9

Chronic obstructive pulmonary disease
Chronic obstructive pulmonary disease exacerbations, 7(11):43–9
A comparison of moxifloxacin and azithromycin in the treatment of acute exacerbations of chronic bronchitis, 7(12):33–7
COPD rehabilitation: beneficial over the long term? 7(6):9–10 *abs/comm*
Little benefit from inhaled corticosteroids in COPD, 7(11):26 *abs/comm*
Withdrawing systemic corticosteroids in patients with COPD, 7(9):11–2 *abs/comm*

Common cold
Zinc therapy for the common cold: another look, 7(10):12, 15–6 *abs/comm*

INDEX TO VOLUME 7

Key to Abbreviations: *abs/comm* = abstract/commentary; *e* = editorial; *le* = letter to the editor; *p* = primer; *pi* = patient information.

SUBJECTS

ACE inhibitors
ACE inhibitors for all patients with type 2 diabetes? 7(1):18–9 *abs/comm*
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*
Renal insufficiency and ACE inhibitor use, 7(11):15–6 *abs/comm*

Acupuncture
Acupuncture for cocaine addiction, 7(10):20–1 *abs/comm*

Advance directives
How to implement the "Let Me Decide" advance health and personal care directive program, 7(9):41–7

Alendronate
Therapy prevents bone loss over long term, 7(2):9–10 *abs/comm*

Alzheimer's disease
Rivastigmine for treatment of Alzheimer's disease, 7(11):16, 25–6 *abs/comm*

Ancrod
Intravenous ancrod for treatment of acute ischemic stroke, 7(6):18–21 *abs/comm*

Anesthesia
Does hypnosis relieve pain and anxiety during conscious sedation? 7(6):15–6 *abs/comm*

Angioplasty, percutaneous transluminal coronary
Angioplasty versus medical treatment for coronary artery disease, 7(8):11–2 *abs/comm*

Anorexia nervosa
Care of the adolescent patient with anorexia nervosa, 7(6):65–74

Anticoagulation
Cost-effectiveness of new antiplatelet therapies, 7(12):29–30 *abs/comm*
Oral anticoagulation: clinic management or self-management? 7(9):8, 11 *abs/comm*
Outcomes of outpatient anticoagulation therapy, 7(8):10–1 *abs/comm*
Reducing the risk of bleeding in anticoagulated patients, 7(12):13–4 *abs/comm*

Antiemetics
Prochlorperazine versus promethazine for uncomplicated nausea, 7(9):12, 15 *abs/comm*

Antihypertensive therapy
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*
Underuse of early β-blocker therapy for myocardial infarction, 7(1):19–20 *abs/comm*

Arthroplasty, hip
Ancillary service utilization in academic health center hospitals: use of physical therapy for the treatment of stroke and hip arthroplasty, 7(8):20–6

Aspirin
Aspirin for primary prevention of heart disease: benefits overestimated? 7(8):13–4 *abs/comm*
Low-molecular-weight heparin versus aspirin in patients with stroke and atrial fibrillation, 7(6):10–1 *abs/comm*

Asthma
Impact of stress on children's asthma attacks, 7(11):8, 11 *abs/comm*
Partnering specialist care with nurse case management: a pilot project for asthma, 7(5):17–22

Azithromycin
A comparison of moxifloxacin and azithromycin in the treatment of acute exacerbations of chronic bronchitis, 7(12):33–7

β-Blockers
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*

Bariatric surgery
Bariatric surgery relieves cardiovascular symptoms in obese patients, 7(8):14–5 *abs/comm*

Breast cancer
Genetic susceptibility testing for breast cancer: implications for practitioners, 7(1):81–8
Health-related quality of life assessment in breast and prostate cancer, 7(12):53–66

Burns
Quality of life in children surviving massive burns, 7(3):11–2 *abs/comm*

Caesarian section
Planned caesarian section preferable in breech deliveries, 7(12):26, 29 *abs/comm*

Cancer pain
Pain in advanced cancer: assessment and management, 7(10):47–57

Cardiac risk indices
Cardiac risk indices compared, 7(10):16, 18 *abs/comm*

Cardiovascular disease
Angioplasty versus medical treatment for coronary artery disease, 7(8):11–2 *abs/comm*
Appropriate drug prescribing for cardiovascular disease in the elderly, 7(4):47–54
Aspirin for primary prevention of heart disease: benefits overestimated? 7(8):13–4 *abs/comm*
Cardiovascular risk reduction at UnitedHealthcare of North Carolina: the first 12 months, 7(4):40–3
Coronary heart disease in type 2 diabetes: the end result of the insulin resistance syndrome, 7(11):50–9
Daytime sleepiness in the elderly: a risk factor for cardiovascular disease? 7(4):10–1 *abs/comm*

Case management
An emergency case management program to prevent payment denials, 7(3):38–42
Partnering specialist care with nurse case management: a pilot project for asthma, 7(5):17–22

Catheters, central venous
Antimicrobial central venous catheters: a qualitative review of the literature and economic assessment, 7(12):42–8

Cervical cancer
New adjunct to cervical cancer screening: is it cost-effective? 7(10):21–2 *abs/comm*

Cholesterol
Cost-effectiveness of cholesterol-lowering therapies, 7(7):17–8 *abs/comm*
Impact of a low-cost intervention to increase cholesterol awareness among older patients, 7(4):31–9

Chronic obstructive pulmonary disease
Chronic obstructive pulmonary disease exacerbations, 7(11):43–9
A comparison of moxifloxacin and azithromycin in the treatment of acute exacerbations of chronic bronchitis, 7(12):33–7
COPD rehabilitation: beneficial over the long term? 7(6):9–10 *abs/comm*
Little benefit from inhaled corticosteroids in COPD, 7(11):26 *abs/comm*
Withdrawing systemic corticosteroids in patients with COPD, 7(9):11–2 *abs/comm*

Common cold
Zinc therapy for the common cold: another look, 7(10):12, 15–6 *abs/comm*

COMT inhibitors
COMT inhibitors in Parkinson's disease, 7(11):39 *le*

Corticosteroids
Little benefit from inhaled corticosteroids in COPD, 7(11):26 *abs/comm*
Withdrawing systemic corticosteroids in patients with COPD, 7(9):11–2 *abs/comm*

Cost-effectiveness
Are statins cost-effective in elderly patients with previous myocardial infarction? 7(7):18–9 *abs/comm*
A cost-effective approach to perioperative care for the primary care physician, 7(8):43–53
Cost-effectiveness of cholesterol-lowering therapies, 7(7):17–8 *abs/comm*
Cost-effectiveness of new antiplatelet therapies, 7(12):29–30 *abs/comm*
Intensive management of type 2 diabetes increases therapy costs but reduces complications, 7(7):19–20 *abs/comm*
New adjunct to cervical cancer screening: is it cost-effective? 7(10):21–2 *abs/comm*

COX-2 inhibitors
COX-2 inhibitors and renal function in the elderly, 7(8):9–10 *abs/comm*
The COX-2 report: the good, the bad, and the unknown, 7(1):62–6 *e*
Specific COX-2 therapy is the future, 7(1):56–9 *e*

Cystic fibrosis
Decisions in the management of adults with cystic fibrosis, 7(1):71–80

Depression
Evidence-based treatment of dysthymia in primary care, 7(6):47–60
A primary care-based depression management program, 7(6):16–8 *abs/comm*
Self-management of dysthymia and other chronic conditions, 7(6):53 *p*

Diabetes
ACE inhibitors for all patients with type 2 diabetes? 7(1):18–9 *abs/comm*
Automated telephone calls improve outcomes in patients with diabetes, 7(4):11–2 *abs/comm*
Benefits of exercise in men and type 2 diabetes, 7(6):12, 15 *abs/comm*
Coronary heart disease in type 2 diabetes: the end result of the insulin resistance syndrome, 7(11):50–9
Differences in diabetes care across specialties, 7(4):13–4 *abs/comm*
Intensive management of type 2 diabetes increases therapy costs but reduces complications, 7(7):19–20 *abs/comm*
A multicomponent intervention to improve diabetes care, 7(12):15–6 *abs/comm*
A population-based approach to diabetes management in commercial and managed medicare health plans, 7(12):49–51

Disease management
Automated telephone calls improve outcomes in patients with diabetes, 7(4):11–2 *abs/comm*
Cardiovascular risk reduction at UnitedHealthcare of North Carolina: the first 12 months, 7(4):40–3
The JointVentures program: improving outcomes and satisfaction in joint surgery patients, 7(7):28–30
A multicomponent intervention to improve diabetes care, 7(12):15–6 *abs/comm*
Obstructive sleep apnea: feasibility of a disease management strategy utilizing primary care case finding, 7(7):34–8
Osteoporosis disease management: best practices from the Penn State Geisinger Health System, 7(5):23–8
A population-based approach to diabetes management in commercial and managed medicare health plans, 7(12):49–51

Drug addiction
Acupuncture for cocaine addiction, 7(10):20–1 *abs/comm*

Dyspepsia
Effect of screening and treatment for *H. pylori* on dyspepsia, 7(7):8,14 *abs/comm*

Dysthymia
Evidence-based treatment of dysthymia in primary care, 7(6):47–60
Self-management of dysthymia and other chronic conditions, 7(6):53 *p*

Eating disorders
Care of the adolescent patient with anorexia nervosa, 7(6):65–74

Emergency care
Timing is everything: impact of emergency department care on hospital length of stay, 7(8):31–6

End-of-life
How to implement the "Let Me Decide" advance health and personal care directive program, 7(9):41–7

Endometrial cancer
Tamoxifen use and risk of endometrial cancer, 7(11):14–5 *abs/comm*

Exercise
Benefits of physical therapy and exercise in osteoarthritis, 7(3):15–6 *abs/comm*
Older adults: don't wait for weights, 7(1):13–4 *abs/comm*
Resistance training improves blood pressure, 7(2):16, 19 *abs/comm*

Genetic testing
Genetic susceptibility testing for breast cancer: implications for practitioners, 7(1):81–8

Guidelines
Hypertension treatment practices in primary care, 7(10):11–2 *abs/comm*
Impact of guidelines on use of *Helicobacter pylori* testing and treatment in hospitalized patients with bleeding ulcers, 7(1):39–48
Physician and patient characteristics associated with adherence to preventive care guidelines, 7(3):25–32

Health education
Impact of a low-cost intervention to increase cholesterol awareness among older patients, 7(4):31–9

Health habits
Modifiable health risks affect short-term health care costs, 7(2):11, 15 *abs/comm*

Heartburn
How satisfied are chronic heartburn sufferers with their prescription medications? Results of the Patient Unmet Needs Survey, 7(11):29–34

Heart failure
Benefits of omapatrilat in patients with heart failure, 7(10):19–20 *abs/comm*
Care of heart failure patients: does physician specialty matter? 7(3):17–8 *abs/comm*
Losartan versus captopril in congestive heart failure, 7(12):9–10 *abs/comm*

Helicobacter pylori
Effect of screening and treatment for *H. pylori* on dyspepsia, 7(7):8, 14 *abs/comm*
H. pylori eradication in iron deficiency amenia, 7(1):20 *abs/comm*
Impact of guidelines on use of *Helicobacter pylori* testing and treatment in hospitalized patients with bleeding ulcers, 7(1):39–48

Heparin
Outcomes of outpatient anticoagulation therapy, 7(8):10–1 *abs/comm*
Low-molecular-weight heparin versus aspirin in patients with stroke and atrial fibrillation, 7(6):10–1 *abs/comm*

Hepatitis C
Hepatitis C virus infection: approaching the patient, 7(2):50–9

HIV
Medication adherence in HIV patients: improvement is needed, 7(8):15–6 *abs/comm*

INDEX TO VOLUME 7

Home visits
Effect of nurse visits on outcomes in the elderly, 7(9):16–7 *abs/comm*

Hormone replacement therapy
Hormone replacement therapy, 7(9):55 *pi*
Therapy prevents bone loss over long term, 7(2):9–10 *abs/comm*

Hospitalists
Evidence-based evaluation of the hospitalist model of care, 7(1):49–53

Hypertension
Are conventional and newer antihypertensives comparably effective? 7(2):15–6 *abs/comm*
Evaluation of tablet-splitting in patients taking lisinopril for hypertension, 7(4):22–4
Hypertension treatment practices in primary care, 7(10):11–2 *abs/comm*
Resistance training improves blood pressure, 7(2):16, 19 *abs/comm*

Hypnosis
Does hypnosis relieve pain and anxiety during conscious sedation? 7(6):15–6 *abs/comm*

Immunization
Hospital-based strategies to improve pneumococcal vaccination rates in the elderly, 7(11):35–8
Immunization rates in children receiving diptheria-tetanus-pertussis and measles-mumps-rubella vaccines simultaneously, 7(1):27–30

Influenza
The burden of pediatric influenza, 7(3):12, 15 *abs/comm*
Developments in the care of influenza patients: priorities and perspectives, 7(2):63–72

Insomnia
Insomnia in the elderly: assessment and management in a primary care setting, 7(3):50–8

Intermittent claudication
Improving walking ability using foot compression, 7(7):14–5 *abs/comm*

Iron deficiency anemia
H. pylori eradication in iron deficiency amenia, 7(1):20 *abs/comm*

Irritable bowel syndrome
Costs of care for irritable bowel syndrome in managed care, 7(6):23–8

Joint replacement
The JointVentures program: improving outcomes and satisfaction in joint surgery patients, 7(7):28–30

Laboratory medicine
Improving laboratory medicine through pathologist involvement: a community hospital's experience, 7(6):35–40

Lyme disease
Clinical and functional outcomes in Lyme disease, 7(2):10–1 *abs/comm*
Clinical controversies in Lyme disease, 7(7):47–56
Lyme disease vaccine in North America, 7(7):42–6
Lyme disease: what you should know, 7(7):53 *pi*

Medicare outcomes survey
How healthy are our seniors? Baseline results from the Medicare Health Outcomes survey, 7(8):39–42

Meniscal tears
Management of meniscal tears, 7(2):30–4

Menopause
Clinical decision making during the perimenopause, 7(9):49–54, 56–61

Moxifloxacin
A comparison of moxifloxacin and azithromycin in the treatment of acute exacerbations of chronic bronchitis, 7(12):33–7

Myocardial infarction
Are statins cost-effective in elderly patients with previous myocardial infarction? 7(7):18–9 *abs/comm*
Delayed thrombolysis is common in older patients, 7(2):19–20 *abs/comm*
Underuse of early β-blocker therapy for myocardial infarction, 7(1):19–20 *abs/comm*

Nausea
Prochlorperazine versus promethazine for uncomplicated nausea, 7(9):12, 15 *abs/comm*

Nursing homes
Is nursing home care improving? 7(3):16–7 *abs/comm*

Obesity
Bariatric surgery relieves cardiovascular symptoms in obese patients, 7(8):14–5 *abs/comm*
The long-term effectiveness of weight reduction interventions in patients with obesity: a critical review of the literature, 7(5):31–44

Omapatrilat
Benefits of omapatrilat in patients with heart failure, 7(10):19–20 *abs/comm*

Osteoarthritis
Benefits of physical therapy and exercise in osteoarthritis, 7(3):15–6 *abs/comm*

Osteoporosis
Clinical decision making during the perimenopause, 7(9):49–54, 56–61
Effects of low-dose thiazide on bone mass, 7(12):16, 25–6 *abs/comm*
Osteoporosis disease management: best practices from the Penn State Geisinger Health System, 7(5):23–8
Therapy prevents bone loss over long term, 7(2):9–10 *abs/comm*

Pain management
Pain in advanced cancer: assessment and management, 7(10):47–57

Parenteral anti-infective therapy
Rates of adverse events associated with community-based parenteral anti-infective therapy, 7(10):23–8

Parkinson's disease
COMT inhibitors in Parkinson's disease, 7(11):39 *le*
An evidence-based approach to management of early Parkinson's disease, 7(3):62–74

Patient satisfaction
Effect of physician turnover on patient satisfaction in an academic primary care practice, 7(10):33–8
How satisfied are chronic heartburn sufferers with their prescription medications? Results of the Patient Unmet Needs Survey, 7(11):29–34
Patient quality ratings of health plans, 7(4):14–5 *abs/comm*
Problems in using patient satisfaction data to assess the quality of care provided by primary care physicians, 7(9):19–24

Penicillin
Penicillin treatment for sore throat: longer is better, 7(9):17–8 *abs/comm*

Pharyngitis
Penicillin treatment for sore throat: longer is better, 7(9):17–8 *abs/comm*

Phenylketonuria
Outcomes of treatment of phenylketonuria during pregnancy, 7(3):18, 21 *abs/comm*

Physical therapy
Ancillary service utilization in academic health center hospitals: use of physical therapy for the treatment of stroke and hip arthroplasty, 7(8):20–6

Physician-patient communication
Conflicting doctor and patient agendas: a case illustration, 7(10):41–6

Prescribing patterns
Prescribing psychotropic medications to preschoolers, 7(4):12–3 *abs/comm*

Pressure ulcers
Is nursing home care improving? 7(3):16–7 *abs/comm*

Preventive care
Clinical decision making during the perimenopause, 7(9):49–54, 56–61
Effect of nurse visits on outcomes in the elderly, 7(9):16–7 *abs/comm*
Physician and patient characteristics associated with adherence to preventive care guidelines, 7(3):25–32

Prostate cancer
Early detection and treatment of prostate cancer, 7(4):55–66
Health-related quality of life assessment in breast and prostate cancer, 7(12):53–66

Protease inhibitors
Medication adherence in HIV patients: improvement is needed, 7(8):15–6 *abs/comm*

Psychotropics
Prescribing psychotropic medications to preschoolers, 7(4):12–3 *abs/comm*

Quality of life
Effect of vision and hearing impairments on functional status, 7(1):17 *abs/comm*
Health-related quality of life assessment in breast and prostate cancer, 7(12):53–66
Quality of life in children surviving massive burns, 7(3):11–2 *abs/comm*

Quality ratings
Patient quality ratings of health plans, 7(4):14–5 *abs/comm*

Reimbursement
An emergency case management program to prevent payment denials, 7(3):38–42

Renal insufficiency
Renal insufficiency and ACE inhibitor use, 7(11):15–6 *abs/comm*

Resistance training
Older adults: don't wait for weights, 7(1):13–4 *abs/comm*
Resistance training improves blood pressure, 7(2):16, 19 *abs/comm*

Respiratory synctival virus
Use of RSV-IGIV: one hospital's experience, 7(7):23–6

Rivastigmine
Rivastigmine for treatment of Alzheimer's disease, 7(11):16, 25–6 *abs/comm*

Screening
Early detection and treatment of prostate cancer, 7(4):55–66
Effect of screening and treatment for *H. pylori* on dyspepsia, 7(7):8, 14 *abs/comm*
Genetic susceptibility testing for breast cancer: implications for practitioners, 7(1):81–8
A screening tool to identify patients with sleep apnea, 7(1):14 *abs/comm*

Sensory impairment
Effect of vision and hearing impairments on functional status, 7(1):17 *abs/comm*

Sleep apnea
Obstructive sleep apnea: feasibility of a disease management strategy utilizing primary care case finding, 7(7):34–8
A screening tool to identify patients with sleep apnea, 7(1):14 *abs/comm*

Somnolence
Daytime sleepiness in the elderly: a risk factor for cardiovascular disease? 7(4):10–1 *abs/comm*

Statins
Are statins cost-effective in elderly patients with previous myocardial infarction? 7(7):18–9 *abs/comm*

Stress
Impact of stress on children's asthma attacks, 7(11):8, 11 *abs/comm*
Job strain affects health-related quality of life, 7(7):15–6 *abs/comm*

Stroke
Ancillary service utilization in academic health center hospitals: use of physical therapy for the treatment of stroke and hip arthroplasty, 7(8):20–6
Cost-effectiveness of new antiplatelet therapies, 7(12):29–30 *abs/comm*
Intravenous ancrod for treatment of acute ischemic stroke, 7(6):18–21 *abs/comm*
Low-molecular-weight heparin versus aspirin in patients with stroke and atrial fibrillation, 7(6):10–1 *abs/comm*
Which care setting for stroke patients? 7(11):11–2 *abs/comm*

Systemic lupus erythematosus
Approach to the management of systemic lupus erythematosus, 7(8):56–62

Systemic sclerosis
Can we improve outcome in systemic sclerosis? 7(2):43–7

Tablet-splitting
Evaluation of tablet-splitting in patients taking lisinopril for hypertension, 7(4):22–4

Tamoxifen
Tamoxifen use and risk of endometrial cancer, 7(11):14–5 *abs/comm*

Thiazide
Effects of low-dose thiazide on bone mass, 7(12):16, 25–6 *abs/comm*

Thrombocytopenia, heparin-induced
Heparin-induced thrombocytopenia: diagnostic and therapeutic considerations, 7(5):47–53

Thrombolysis
Delayed thrombolysis is common in older patients, 7(2):19–20 *abs/comm*

Transfusion practices
Red blood cell transfusion practices, 7(9):29–40

Urinary incontinence
Urinary incontinence in an elderly woman, 7(5):57–65

Utilization management
Ancillary service utilization in academic health center hospitals: use of physical therapy for the treatment of stroke and hip arthroplasty, 7(8):20–6
Does utilization management lead to higher readmission rates? 7(4):9–10 *abs/comm*

Vaccines
Immunization rates in children receiving diptheria-tetanus-pertussis and measles-mumps-rubella vaccines simultaneously, 7(1):27–30
Lyme disease vaccine in North America, 7(7):42–6

Weight reduction
The long-term effectiveness of weight reduction interventions in patients with obesity: a critical review of the literature, 7(5):31–44

Zinc
Zinc therapy for the common cold: another look, 7(10):12, 15–6 *abs/comm*
